

Kingkraft Assist Sense

Variable Height Wash Basin

The unit consists of a Corian basin which includes a large surface area to provide plenty of arm support.

Using the infra red sensor controls the whole basin unit can be moved up and down and the hot and cold water can be turned on and off.

The ergonomic design of the Corian basin means that the user can get closer the bowl than most other basins.

This sleek and stylish design makes it the perfect addition to any bathroom.
